MALL OF ASIA, MANILA

„Mall of Asia“ Shopping Center

Project

The Mall of Asia is one of the largest shopping malls in Asia, beautifully situated at Manila Bay. The complex – spreading over an area of almost 400'000 m² houses more than 500 shops, bank branches, an IMAX cinema, clinics, a church, a museum of science and an ice rink. The mall is visited daily by more than 200'000 visitors, on peak days the number reaches the one million visitors mark.

Solution

The foundation slab and all below ground walls (parking facility) as well as the potable water, firewater tanks and lift pits were treated with a VANDEX SUPER

Technical Information

Product used: VANDEX SUPER WHITE

Area treated: 80'000 m²

WHITE. On the slabs, VANDEX SUPER WHITE was applied by the dry sprinkle method.

Why Vandex?

Among various suggestions submitted by a variety of suppliers, Vandex's proposal fully met the specified requirements. A careful cost evaluation revealed that the VANDEX SUPER WHITE waterproofing proved to be the most cost effective solution.
